

Best Dentist 2014

Dr. William Privett and his staff strive to take care of all their patients' needs. This is why they believe Dr. Privett has won the "Best Dentist" category in this year's Readers' Choice awards.

Heart of Texas General Dentistry opened on Rock Prairie Road in October 2013 - moving from a smaller location on Texas Avenue in Bryan. While the southern part of College Station continued to grow, there was an increased demand for family dentistry. Dr. Privett recognized the potential in the current location as he passed it every day on his way home from the Texas Avenue office.

Heart of Texas General Dentistry offers the latest in dental care for all ages. Dr. Privett and his staff routinely participate in continuing education courses, which allows for them to keep up with new products,

technology and techniques used to provide the best dentistry available. Treatments provided in Privett's office include preventative, restorative and cosmetic procedures.

Staff members believe a friendly and competent team sets Privett's team apart.

"Our friendly and knowledgeable staff is thrilled to assist our patients with anything they might need," said staff members in a written statement. "We like to remind our patients that we are here to work with them, not on them. The front office staff greets our patients with a smile, and is happy to work with the patients' schedules to set up for further appointments. The hygienists are very personable and thorough during the patient's visit. Our registered dental assistants are very knowledgeable and happy to explain or answer questions about any procedures. The clinical staff is

known for creating a comfortable and stress-less atmosphere for patients who may suffer from a little dental anxiety. Dr. Privett ties this, what we feel is a family, all together with his cheerful banter, outstanding bedside manner and exquisite abilities in dentistry."

They believe the award was the result of aiming to help patients the best they can.

"We believe our office has won this award because we do our very best to accommodate patients and strive for excellence in order to arrive at the best end result and most pleasurable patient experience," they wrote. "Whether it is meeting a patient with a toothache on weekends, scheduling early morning appointments or staying later in the evening to make sure a patient is well taken care of."

The dental team was excited about the award.

"Dr. Privett and the entire staff feel grateful, thrilled, appreciated and very blessed to be recognized as a favorite among the many excellent dentists in the Bryan, College Station area," they stated. "We are especially honored because we had no idea we were in the running, and not a single vote was solicited. We just do our very best every day."

Heart of Texas General Dentistry staff, from left to right, are (front row): Angela Jensen, RDA, Melissa Casano, RDH, Leslie Brooks, Front Office, Bill Privett, DDS, Wendy Kotila, RDH, Jordan Privett, (back row) Julia Jodicks, RDH, Priscilla Gonzales, RDA, Duziene Dusek, Front Office and Paula Blake, Front Office. Not pictured are Mark Pratt, RDH, Robin Berry, RDA and Lauren Privett.
